In the Words of Sage Intacct Hospitality Customers

Sage

Introduction

Whether you operate multi-property hotels, restaurant chains, entertainment venues, resorts, clubs, or other hospitality businesses, you need a sophisticated financial management system that will help you to focus on better serving customers and growing your business. Maybe that's why so many hospitality companies turn to Sage Intacct for our award-winning cloud-based financial software solution. Sage Intacct financial software automates hospitality accounting and financial management to give you greater visibility into your restaurant, lodging, or other hospitality business, and helps you make decisions that boost profitability. But don't take our word for it—read the following reviews published on TrustRadius and G2, leading B2B software review sites.

Sage Intacct- what a great system

“We are a restaurant management company with multiple entities. We use Sage Intacct to produce profit and loss statements and balance sheets for all of our restaurants and real estate companies. It has drastically reduced the time to produce our monthly/quarterly/yearly consolidated financials from a few days to a few hours.”

~ Pam Bakker, Controller & Director of HR, Laird Management

Worth the investment

“This product has changed the way we do business. The report wizard tool is simply unmatched. We can create a report to reveal the information we want to see, when we want to see it. We don’t feel constrained or limited especially with the dimensional flexibility. We appreciate the quarterly updates and the investment that Sage Intacct continues to make in making a better product!”

~ Tyler Shockley, Controller, Courthouse Athletic Club

Sage Intacct has streamlined our company!

“Sage Intacct is a great accounting system for our company because we are steadily growing each year and it allows us to keep up with continuous growth. We have been able to streamline several processes, like financial reporting and accounts payable. It is a great product and I highly recommend if you are a multi-entity company. Also, there are always helpful features coming out such as the “collaboration center” which helps streamline communication.”

~ Andrea Nash, Staff Accountant, Olympia Companies

Sage Intacct is a very user- friendly tool

“Excellent Product and great value for the money spent on it. Truly saves you time and your employees time and allows you to spend time on other things that needs to get done when you have the right systems in place. I highly recommend Sage Intacct to everyone that does accounting, it is better than any other accounting tool that I have previously used before and there are a ton out there and this one outshines them all.”

~ Shannon Santopietro, Financial Systems Project Manager, CRTV
